Navigating Your Phone

Line Buttons

Line buttons are located on the left side of the phone screen. Buttons that are not assigned to phone lines can be used for speed-dials and other features.

Session Buttons

Session buttons are used to perform tasks such as answering a call, resuming a held call, or initiating phone functions, such as displaying missed calls. Each call on your phone is associated to a session button. Session buttons are located on the right side of the phone screen.

Softkeys

Softkeys are feature buttons that dynamically change to reflect your current options. Four softkey buttons are located below the phone screen. You can press the More softkey when available to reveal additional softkeys.

Scrolling

To scroll though a menu or list, press up, down, left or right on the four-way *Navigation* cluster.

A scroll bar on the screen indicates your relative position within a list.

Dialing

To place a call, pick up the handset and enter a number, or try one of these alternatives.

Redial Last Number

Press *Redial* to redial your primary line. To redial on another line, press the desired line button first.

Dial On-Hook

1. Enter a number when the phone is idle.
2. Lift the handset or press *Call*, *Headset*

    , *Speakerphone* , or *Select*.
