Enrollment

This section includes current enrollment and enrollment trend. Current enrollment shows UNCSA fall 2012 college headcount enrollment and FTE by school, level, and residency (Table 1 and Figure 1). It also includes in-state headcount enrollment by county and out-of-state enrollment by state and region (Tables 2a-b and Figure 2). The racial composition of college enrollment is shown in Table 3 and Figure 3.

Enrollment trend data include college headcount enrollment by field of study for the past ten years, fall 2003 through fall 2012 (Table 4 and Figure 4). The Integrated Postsecondary Education Data System (IPEDS) reclassified the race/ethnicity categories in 2009. Thus, the trend data on racial composition of UNCSA college enrollment started from fall 2009 (Table 5 and Figure 5).

Retention and Graduation

The retention and graduation measures are set by the US Department of Education and are collected by Integrated Postsecondary Education Data System (IPEDS). These measures focus on the first-time full-time (FTFT) freshmen entering an institution in fall semesters. As an UNC institution, we track students retained and graduated from their home institution (UNCSA in our case) and retained and graduated from other UNC institutions. Tables 7, 8, and 9 show the retention and graduation rates of our five FTFT freshmen cohorts. UNC System total rates are also provided for reference.

About 3,400 U.S. colleges and universities participate in National Student Clearinghouse (NSC). UNCSA is one of them. Thus, we are now able to track students who initially started at UNCSA, but transferred to and graduated from other institutions nationwide through NSC. Data in Table 10 show that our FTFT freshmen had high success and progress rates while tracking among all the NSC participating institutions in the country. Please note that the NSC tracks the cohort at the end of the fall semester while IPEDS tracks the cohort at the beginning or the census date of the fall semester.

Degree Production

Since UNCSA was founded in 1963, it has awarded over 4,200 students with Bachelor's and Master's degrees. Table 11 shows the number of degrees awarded at UNCSA by field of study and degree level for the past ten years. Table 12 shows the number of Bachelor's and Master's degrees awarded at UNCSA since it was founded.

Admissions

UNCSA has attracted talented young artists with good academic standings from many states in the country and from the globe. Majority of our fall 2012 first-time freshmen (75%) were in top half of their high school graduating class and 37% were in top quarter of high school graduating class.

The average SAT scores of our first-time freshmen have been consistently above the UNC system average (Table 13). The trend of our first-time freshmen average SAT scores is shown in Figure 8. Table 14 shows the distribution and quartile of the SAT scores.

UNCSA has selected talented young artists to our programs and kept the enrollment growth at the same time. Table 15 shows the number of freshman, transfer, and graduate applicants, acceptances, and enrollees by residency and gender for the past five years. The percent of acceptances over applicants and the percent of enrollees over acceptances are provided for each group.
