Cost of Attendance Budgets for Financial Aid Purposes, 2011-2012

These budgets have been calculated as an estimate of what it will cost a student to live and attend school for the 2011-2012 academic year. (For planning purposes, keep in mind that costs usually increase each year.) The "TOTAL" is more than a student will owe the school ("Direct Costs") which depends on attendance and living arrangements. Students will see their Cost of Attendance "Total" listed on their Financial Aid Award Notification as "Financial Aid Budget."
