

University of North Carolina School of Arts Immunization Requirements

North Carolina Immunization Law requires students to submit a certificate of immunization that documents their compliance with all state required immunizations. This form is part of the blue physical form sent to every student upon admission. Student Health Services will review these certificates and serves to assist UNCSA students with questions about becoming compliant with this state law. These immunization records are due in Student Health Services **prior** to registration. Once complete records are received, the Director of Student Health Services documents this compliance for the Office of the Registrar.

For more information from the NC Immunization Branch and questions got to:

<http://www.immunize.nc.gov/schools/collegesuniversities.htm>

Immunizations information may be submitted to Student Health Services in one of five ways:

- Have your health care provider sign the immunization form section of your blue physical form
- If you have a copy of your immunization records that is stamped or signed by the administering physician/health agency and includes dates on which immunizations were administered, you can simple submit a legible copy of these records. Please be sure to include your name and date of birth on all pages submitted.
- If immunizations information is included on high school or other transcripts, you can request that the school send a copy of the transcripts to Student Health Services. Note, a copy of your transcripts is not sent to the health center by the admissions office.
- If you are transferring from another high school, college or university contact the former universities health center to request that copy of your records to be mailed to the UNCSA Student Health Center.
- If you have been in the military the veterans administration will be able to access your immunization records.

Always retain a copy of any records submitted for review. We do not request immunization records for students. Students not in compliance with North Carolina immunization laws will not be allowed to attend classes.
