Mandatory Health Insurance Requirement

The University of North Carolina School of the Arts requires all students who pay the health fee to be enrolled in major medical insurance. A University health insurance plan is available for those who are not already covered by an existing plan. Students are automatically charged \$738 per school year for the Student Health Insurance Plan when they register for classes, unless they complete an on-line waiver attesting that they are covered by their own health insurance. *This on-line waive is mandatory. You will receive confirmation when the waiver is completed. Retain this confirmation for your records.*

Do you already have Health Insurance?

YES	NO
Then you must complete an on-line waiver for your current insurance information no later than September 30, 2010. Go to: www.studentinsurance.com search for UNCSA and complete the on-line form. If your waiver is approved, your student account will be credited \$738. You may waive out as early as 6/1/2010.	Are you interested in the University approved Student Health Insurance Plan? Activate your coverage on-line now and receive your health insurance ID card in the mail. Go to: Enrollment link: www.studentinsurance.com search for UNCSA, complete the on-line enrollment option. The \$738 charge will remain on your student account. Be sure to enter your current address. Your insurance card will be mailed to that address.

If you do not submit a waiver form you will automatically purchase the Student Health Insurance Plan and the \$738 charge will remain on your student account. Waiving the health insurance does not restrict access to services offered through the Wellness Center.

Important Information - Insurance waiver:

1. To waive, you will need your current health insurance card to verify that you have health insurance. Print out and keep all confirmation numbers whether you waive or activate now on-line. Policy information will be verified.
2. Waivers do not carry over to the next academic year. You must go on-line each fall term.
3. Waivers submitted during the fall term are valid through winter and spring terms.
4. Check with your health insurance company prior to completing the waiver to make sure you will be covered in our area. We have found that some insurance plans do not cover well in our area. Please note that students with Tri-Care or Kaiser Permanente often have difficulty with coverage in the Winston-Salem area.
5. Fall insurance coverage is effective 8/1/2010.
6. You are strongly encouraged to read the information about the insurance plan. It details coverage and the benefits. More detailed information is on the above web site.
