Hispanic Heritage Month is celebrated annually from September 15 to October 15 to recognize the rich history, culture, achievements and many contributions Hispanic Americans have made to the United States. Hispanic Federation (HF) acknowledges these accomplishments every day, serving as a national model for Latino social, political and economic empowerment. HF work locally, state-wide and nationally to strengthen Latino nonprofits, promote public policy advocacy and bring to scale a portfolio of innovative community programs. They work to uplift millions of Hispanic children and families across the country. HF has a strong presence in New York, Florida, North Carolina, Puerto Rico and other key states across the U.S. Its Washington, D.C. office offers a true national advocacy presence. Join Lariza Garzon, Hispanic Federation’s Director of NC and MidSouth Operations, to learn more about this model organization and how to make a positive difference for North Carolina’s Hispanic workers and residents.

Lariza Garzon is the Director of NC and MidSouth Operations at Hispanic Federation (HF).
