CREATIVE CATALYST INITIATIVE
Thomas S. Kenan Institute for the Arts | Strategic Plan | 2018-2022
IMPACT STATEMENT

The Thomas S. Kenan Institute for the Arts at the University of North Carolina School of the Arts (UNCSA) believes that artists can defy expectations through their art and—even more powerfully—through their creative perspectives. Since it was established in 1993, the Institute has helped artists and creatives realize their potential by serving as a catalyst that encourages and supports the exploration and development of new knowledge to transform the way artists, organizations and communities approach their creative challenges.

The Kenan Institute’s new Creative Catalyst Initiative will empower the next generation of artist leaders, entrepreneurs and innovators to lead, create and make; enhance the perimeter of the University of North Carolina School of the Arts campus and south Winston-Salem through creative placemaking as a catalyst for creative businesses to stay, grow and thrive; and engage the creative community across the Southeast to increase access, equity and inclusion across the sector.

Through its innovative programs and projects, the Kenan Institute will continue to position UNCSA as an innovative hub for the Southeast’s creative economy and provide extraordinary training and access for the next generation of artist-leaders so they can develop and achieve their highest potential.
